

NABIS' Service Coordinators

NABIS' Service Coordinators are part of the **Alberta Brain Injury Network**, a provincial program of Alberta Seniors & Community Supports, which coordinates supports for individuals affected by brain injury and builds the capacity for such supports within the community.

NABIS Edson Welcomes Dee Trozzo

I just recently moved to Edson from Taber, where I have lived all my life. I recently completed a degree from Athabasca University where I graduated with a Bachelor of Professional Arts with a major in Human Services and Psychology. I also received a diploma in Criminal Justice from Lethbridge Community College. I graduated with honours in both programs. I am currently working towards achieving my Masters in Psychology. The decision to go back to school was an easy one as I have a passion for people. I am driven by trying to figure out all aspects of people's lives that make them who they are and influence the decisions that they make. Aside from that, I am also a Mom. I have two children: my son Kyden is ten years old and my daughter Jaira is nine years old. I enjoy spending a lot of time with my family playing games and watching movies. My kids would tell you that I am obsessed with American Idol, HA!HA! Well, I do enjoy my reality TV, not that I get much time to watch. I also enjoy baking. Not many know but I do professional wedding cakes as a hobby. I worked in the bakery for many years but started to lose interest. I have also worked as a homecare nurse, and a behavioural consultant. Last year I had the opportunity to work with children who were autistic and I will forever be changed by my experi-

ence. There are so many things in life that we take for granted, such as our children's ability to say, "I love you." For families who have autistic children those words are often not heard and therefore are celebrated when heard. I hope to take the lessons I have learned and continue to show that life is worth appreciating. I have enjoyed my short time as a Service Coordinator with NABIS and look forward to meeting and working with everyone.
