

NABIS' Service Coordinators

NABIS' Service Coordinators are part of the **Alberta Brain Injury Network**, a provincial program of Alberta Seniors & Community Supports, which coordinates supports for individuals affected by brain injury and builds the capacity for such supports within the community.

Welcome to Robin Clemmer Service Coordination NW & NE

By Robin Clemmer

I am originally from Kelowna, BC which is where I took my training as a licensed practical nurse. I graduated from the Okanagan University College nursing program in 2002 and have worked in various healthcare settings including acute care, extended care, mental health and community.

I especially enjoy the community setting and have worked as a home support supervisor and mental health worker.

I moved to the Edson area just over a year ago with my husband and our three dogs and two cats. We enjoy the small town life Edson offers and live on an acreage west of town. We are in the process of fencing our property to accommodate a few horses and eventually a chicken coop. In my spare time I enjoy photography, writing poetry, quadding, camping and hiking.

I am excited to be a part of the NABIS team as the new part time service coordinator in the Edson office. I also look forward to hosting the Edson support group meetings and hope my nursing knowledge and experience will be helpful to brain injury survivors and their families. Please stop by the office or call me if there is anything I can do to assist you.

NW Service Coordination has moved from NABIS to two other agencies. Please refer to the following regional Service Coordinators for Northern Alberta:
